## Catalog Pricing Policy

### Guidelines:

- We utilize list pricing, which is shown on the majority of our catalog pages.
- The dealer's field sales representative will provide the dealer with a List Price Dealer's Multiplier Sheet. List price multipliers may vary by product and/or vendor.
- List prices are subject to change without prior notice. In the event of a list price change, dealers may be issued a new multiplier.
- Please contact our office with any list price questions.

## Sales Policy and Terms

**Sales Policy:** We are a two-step building material wholesaler serving lumber yards, specialty retail dealers, and home centers.

**Delivery Policy:** To assure we process your order correctly and efficiently, we ask that you phone, fax or email your order into our office by 11am of the day preceding shipment.

**Credit:** New accounts are required to fill out an application. Financial statements may be required for accounts requesting a credit line over \$100,000.

**Terms:** 1/2 % 10<sup>th</sup> of the month following purchase. All purchases subject to a cash discount must be paid (postmarked by) the 10<sup>th</sup> of the month following delivery. A service charge of 1 1/2% (18% annually) will be charged on any balance not received by the last working day of the month following the date of purchase. It is the responsibility of the customer to review monthly statements and contact our Accounting Department on any discrepancies. Accounts will be placed on a C.O.D. basis when any invoice becomes 60 days past due and invoices 90 days past due may be placed for collection. *There will be a \$45 charge for any check returned.*

## Return Material Authorization (RMA) Policy

### Guidelines:

- Any material shortage or damage on direct shipments or RBS deliveries must be noted on the original freight bill or RBS delivery ticket and must include the driver's initials.
- RBS stock material that is excess or ordered wrong will be charged a 20% restock fee. All material must be in 100% saleable condition and in original packaging.
- No RBS stock merchandise will be accepted after 30 days from date of delivery unless it is authorized by your field sales representative.
- Special orders (non-stock at RBS) are returnable if the material can be returned to the vendor. Dealer will be charged applicable freight and vendor's restock fee, plus a 10% RBS restock fee. (If no vendor restock fee, then Rocco's 20% restock will be charged). All material must be in 100% condition and in original packaging.
- On fabricated counter tops, we will take back RBS stock fabricated tops at a 20% restock fee and give credit on any good footage over 4' on 25" tops and 6' on bar tops.
- On fabricated door orders, we will take back at a 20% restocking fee, fabricated 2'8", 3'0", and 6'0" in-swing units with 4 9/16" jamb where no modifications (example: deadbolt, peepsite) have taken place. The complete list of non-standard modifications is outlined in Exterior Doors Price Guide, page 6.

**PVC Classic White Exterior Trim Boards**

FEATURES OF THE EX-CEL PVC EXTERIOR TRIM BOARDS:

- \* Can be cut, mitered, nailed, routed and sanded just like traditional wood trim products
- \* Does not need to be painted
- \* Can be bent for curved applications
- \* Unique finish protects PVC core against UV exposure; will never warp or twist in the sun
- \* Two-sided trim boards (smooth on 1 side; wood grain on the other side)
- \* Lifetime warranty

### StoneCraft Program Guidelines

In order to provide outstanding satisfaction and service, the following guidelines apply to all manufactured stone orders:

- ◆ All stock stone flats and corners are sold in full cartons only. This is to ensure that every customer receives a factory-blended mix of flats and corners.
- ◆ Accessories are sold by the piece (hearthstone, trim stone, keystone, wainscot sill, receptacle box, light box, rock face sill, flagstone wall cap, peaked wall cap, pier cap and shutter block).
- ◆ All sales are final-no returns. This is to ensure that every customer receives a factory-blended mix of product.
- ◆ Refer to the StoneCraft "Installation Instructions" to estimate the quantity of flat stones and corners required for a job. *NOTE: One lineal foot of corners covers an area equal to approximately 1/2 square foot of stone flats. Actual square footage may vary due to grout line and installation variances.*
- ◆ NOTE: Using OSB as sheathing material may cause cracking.
- ◆ Special orders stone flats and corners are sold in full pallets only (12 cartons/pallet).  
NOTE: Special orders can mix flats and corners on the same pallet with a \$4.00/carton up charge for the mixed pallet. *Special orders require a 2-3 week lead time.*
- ◆ If for any reason it becomes necessary to cancel a special order, we will make every effort to accommodate the request. There is usually a 24-hour period before orders are final with the manufacturer. If we are unable to cancel or stop the order with the manufacturer, the customer is responsible for the material cost only.

#### FEATURES OF STONECRAFT MANUFACTURED STONE:

- \* **Easy to install (installation instructions available)** \* **Naturally reflects the variations in color and texture of natural stone**  
 \* Can be used in interior and exterior applications \* **50-Year Limited Warranty**  
**FLATS & CORNERS SOLD IN FULL CARTONS ONLY; 12 CARTONS/PALLET. ALL SALES FINAL.—NO RETURNS.**  
**REFERENCE "INSTALLATION INSTRUCTIONS" TO ESTIMATE ACCURATE QUANTITY NEEDED.**  
***Actual square footage may vary due to grout line and installation variances.***

**Extruded Polystyrene Foam Insulation – SB Scored**

**FEATURES OF THE GREEN GUARD EXTRUDED POLYSTYRENE FOAM SCORED INSULATION:**

- \* Scoring at 16" and 24" centers enables the board to be broken cleanly at the job site
  - \* Ideal for masonry wall and foundation applications, especially where concrete form and wall tie requirements are important
  - \* FIRE SAFETY PRECAUTION: In human-occupied buildings where extruded polystyrene is applied, the polystyrene must be covered with a minimum of 1/2" gypsum board or equal thermal barrier
- ☎ CALL OFFICE FOR 3 UNIT DIRECT SHIP PRICING

### Silt Fence – A Fabric for Sedimentation Control

**FEATURES OF THE SILT FENCE:**

- \* Acts as a temporary storm water retention pond; serves as a retaining dam and as a porous release structure

**INSTALLATION INSTRUCTIONS:**

1. Select toe-in method to be used (see illustration).
2. Dig minimum 6" X 6" trench where fence is to be installed or ensure sufficient fill material is available.
3. Unroll pre-attached silt fence by section (stake to stake) along trench or pre-determined path.
4. Drive post into undisturbed soil until support netting is in the trench or beginning to lay on the ground.
5. Place fill material in trench or on fabric flap and tamp by foot.
